Notification of night work – Kensington and Kingsford

In planning for Tomorrow’s Sydney we are building a new light rail line to provide fast, reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to live traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities

Work will take place at the following locations and at the following times:

- **Anzac Parade, between Alison Road and Sturt Street from Monday 5 September to Wednesday 5 October**
  9pm to 5am. Activities involve geotechnical investigations (surveying and potholing), utility investigation and relocation, heritage work, road pavement (includes asphalt milling), traffic signals and signage.

Work will not be continuous in any one location during these time periods. You may experience some noise and vibration during this work. High noise activities such as saw cutting and jackhammering will not take place for more than two consecutive nights (weather and traffic permitting). Respite periods will be in place to mitigate impacts to residents during noisy activity.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, pick and carry cranes (frannas), saw cutters, road grinders, tipper trucks, hand tools, water carts, semi-trailers, spray seal trucks and traffic control vehicles.

Traffic and pedestrian changes

Work will involve some lane closures and minor diversions under traffic management, with only some minor delays expected. Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.

For the latest information on traffic conditions, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.
