Notification of night work – Randwick

In planning for Tomorrow’s Sydney we are building a new light rail line to provide fast, reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to live traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities
Work will take place at the following locations and at the following times:

- **Alison Road, between Darley Road and Wansey Road** from Monday 19 September to Monday 17 October 9pm to 5am. Activities include street lighting changes, kerb and island modifications, utility investigation and relocation, setting up traffic controls, traffic signals and signage work. Approximately 15 nights of work within the notified period.

Work will take place Sunday to Thursday nights. You may experience some noise and vibration during this work. High noise activities such as saw cutting and jackhammering will not take place for more than two consecutive nights (weather and traffic permitting). Respite periods will be in place to mitigate impacts to residents during noisy activity.

Equipment and vehicles for this work may include Elevated Work Platforms, trucks, power tools, chainsaw, cranes and traffic control vehicles.

Traffic and pedestrian changes
Work will involve some lane closures and minor diversions under traffic management, with only some minor delays expected. Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.

For the latest information on traffic conditions, visit livetraffic.com or download the Live Traffic NSW App.
