Light rail work in your area from 1 November to 1 February 2017

In planning for Tomorrow’s Sydney we are building a new light rail line to provide fast reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

What we’re doing in Kensington and Kingsford

ALTRAC Light Rail will continue work in the Kensington and Kingsford area from 1 November.

This notification covers continuing activities within the existing construction zones on Anzac Parade between Todman Avenue and High Street and between Barker Street and Rainbow Street, and at the Randwick Stabling Yard.

Work will also continue at the Rainbow Street rail yard, and investigation along the alignment.

Work may at time be subject to further approval and work periods may be extended, due to weather or unforeseen circumstance. Impacted stakeholders will be notified.

Work locations

Continuing construction work will occur in the following locations:

• Anzac Parade, between Todman Avenue and High Street (Zone 29)
• Anzac Parade, between Barker and Rainbow Streets (Zone 30 South)
• Randwick Stabling Yard (inside the Australian Turf Club boundary behind Doncaster Avenue)

Intersection work will take place at the following locations:

• Anzac Parade and Alison Road
• Anzac Parade and Barker Street
• Anzac Parade and High Street

Investigation work will take place at:

• Anzac Parade, from the Alison Road intersection south to Sturt Street, Kingsford.

Work may also take place at other intersections, on cross-streets and side streets around the area.

Detailed information about new construction zones and intersection work will be provided to impacted stakeholders in advance of the work. New construction zone locations expected during this period include:

• Zone 30 (North), Anzac Parade between High Street and Rainbow Street
• Zone 28, Anzac Parade between Alison Road and Todman Avenue

Work times

Work will occur during standard daytime hours to minimise impacts where possible:

• Monday to Friday, 6am to 6pm
• Saturday, 8am to 5pm

Night time work is necessary at times for safety and traffic reasons. When required this will take place from 8pm to 5am. However, intersection work will take place across both day and night shifts to ensure it is finished as quickly as possible, minimising impacts to traffic and nearby residents.
Details of work activities

**Construction work:** includes site establishment (includes installation of fencing and barriers, traffic signal work, changes to signage and line marking, lane closures and traffic changes), investigative work, utility relocation, drainage work, excavation, vegetation work (includes trimming, mulching and removal of shrubs or trees), structural works, concrete pouring, paving, heritage works, road pavement work (includes asphalt milling and reinstating the pavement), piling, rail delivery, kerb realignment and street lighting adjustments, transportation of excavated material, and all activities at the UNSW (NIDA) carpark on Anzac Parade and night time rail deliveries from the Rainbow Street compound.

In preparation of Zone 30 (North) and Zone 28, new line markings, road, pavement, footpath modifications will take place prior to establishing the new construction zone.

**Intersection work:** includes excavation utility investigation and / or relocation, removal of hazardous material, civil construction work, track work, concrete work and traffic signals and signage and reinstatement work.

**Investigation work:** includes surveying and locating services before trenching and excavating the road surface and footpaths to test utility pits and condition of utilities.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, cranes, chainsaws, saw cutters, road grinders, tipper trucks, hand tools, water carts, semi-trailers, piling rig, spray seal trucks, wide-load vehicles (rail delivery) and traffic control vehicles.

How will work affect you?

**Traffic and pedestrian changes**

Anzac Parade will remain open during all work and two traffic lanes will generally be maintained in both directions. Construction speed limits may apply.

When required, traffic management will assist motorists, pedestrians and cyclists to move safely around the works.

Access to buildings, driveways and pedestrian footpaths will be maintained. Any interruption to property access will be discussed with impacted stakeholders well ahead of time.

Cyclists are recommended to use detours away from Anzac Parade, especially in the areas where construction has started.

Localised traffic management will be in place to assist motorists, pedestrians and cyclists with the new traffic arrangements.

For the latest information on traffic changes please visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

**Noise and dust**

You may experience some noise and vibration during this work. Efforts will be made to schedule the noisiest work during the daytime and evening.

Noise monitoring will be conducted and, where practical, mitigation measures such as noise blankets will be used to minimise impacts as much as possible.

Vehicles will be switched off when not in use to minimise noise. Where required, any dust generating activities will be watered down. Every effort will be made to reduce the impact to residents and businesses while work takes place.

**Keeping you informed**

You will receive periodic updates as work progresses, and advanced notification of any overnight and weekend intersection work. Further notifications will be issued as construction starts in new zones.

**Contact information**

We apologise for any disruption or inconvenience caused during this important work. For general project enquiries, please call 1800 684 490 or email projects@transport.nsw.gov.au. If you have any urgent enquiries or complaints during this work, please contact the 24-hour Construction Response Line on 1800 775 465.
