Notification of night work – Kensington and Kingsford

In planning for Tomorrow’s Sydney we are building a new light rail line to provide fast, reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities

Work will take place at the following locations and times:

- **Anzac Parade, between High Street and Barker Street from Monday 7 November to Saturday 26 November, 9pm to 5am.**

Activities include site establishment work for construction of the light rail, road pavement work, removal of the pedestrian median, civil work (includes excavation and asphaltating), vegetation work (protecting trees, trimming branches, mulching and possible tree or shrub removal), investigation work, utility relocation, heritage investigation, setting up traffic controls and traffic barriers, line-marking removal and reinstatement, traffic signals and signage.

You may experience some noise and vibration during this work. High noise activities such as saw cutting and jackhammering will not take place for more than two consecutive nights (weather and traffic permitting). Respite periods will be in place to mitigate impacts to residents during noisy activity.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, pick and carry cranes (frannas), saw cutters, corers, road grinders, tipper trucks, hand tools, water carts, milling machines, rollers and traffic control vehicles.

Traffic and pedestrian changes

Work will involve some lane closures under traffic management. Motorists will still be able to travel in both directions along Anzac Parade, with only some minor delays expected. Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.
