

Notification of night work – Randwick

In planning for Tomorrow's Sydney we are building a new light rail line to provide fast, reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities

Work will take place at the following locations and times:

- Intersection work **Botany Street and Barker Street, from Friday 3 March to Friday 31 March, 9pm to 5am**. Activities involve service investigation work, line marking removal, excavation work for road crossings, traffic signal footings, utility adjustments, permanent line marking, sign installation and the construction of new asphalt pavement, kerbs and pedestrian ramps.

You may experience some noise and vibration during this work. High noise activities will take place 10am to 2pm where possible (weather and traffic permitting) and will include saw cutting and jack-hammering. There will be respite periods to mitigate impacts to residents during noisy activities.

Equipment and vehicles for this work may include radar detection, survey and monitoring equipment, flood lights, concrete trucks, vacuum excavation trucks, excavators, coring and drilling machines, saw cutters, road grinders, compaction equipment, asphalt milling plant, jack-hammers, water carts and traffic control vehicles. Not all equipment will be used for one activity.

Traffic and pedestrian changes

For the latest information on traffic conditions, visit livetraffic.com or download the Live Traffic NSW App.

Work will involve some lane closures and minor diversions under traffic management, with only some minor delays expected. Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times
