

Notification of out of hours work – Kingsford

In planning for Tomorrow's Sydney we are building a new light rail line to provide fast, reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities

Work will take place at the following locations and times:

- **Anzac Parade, between Barker Street and Rainbow Street from Monday 20 March to Thursday 20 April 2017, 8pm to 6am and 8am to 5pm on Sundays.**

Activities include street lighting relocation work, civil work (excavation, asphaltting), drainage work, geotechnical investigations (potholing and surveying), utility relocations, underground conduit installation, vegetation work (protecting trees, trimming branches, mulching and possible tree or shrub removal), heritage investigations, track work (concrete pouring, rail delivery and installation, welding, saw cutting and surface finishing), removal and reinstatement of kerb, footpath, traffic islands and line-marking, and setting up traffic controls, signals and signage (approximately 20 nights).

Sewage and water main work will also take place at the Anzac Parade intersections of Meeks Street, Middle Street and Nine Ways roundabout.

You may experience some noise and vibration during this work. Where possible, high noise activities such as saw cutting and jackhammering will not take place for more than two consecutive nights (weather and traffic permitting). Respite periods will be in place to mitigate impacts to residents during noisy activity.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators (including hammer attachment), cranes, saw cutters, corers, road grinders, tipper trucks, hand tools, water carts, milling machines, rollers, jack hammers, plate compactors, paving machines, bobcats and traffic control vehicles.

Traffic and pedestrian changes

For the latest information on traffic conditions, visit livetraffic.com or download the Live Traffic NSW App.

Work will involve some lane closures under traffic management. Motorists will still be able to travel in both directions along Anzac Parade, with only some minor delays expected.

Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.
