Notification of out of hours work – Randwick and Moore Park

In planning for Tomorrow’s Sydney, we are building a new light rail line to provide modern, reliable and sustainable public transport that will transform services from Circular Quay and the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. These works are carried out on these dates and times to minimise disruption to live traffic and to maintain the safety of construction works, residents, businesses and the general public.

Details of work activities

Testing and commissioning of electrical systems and light rail vehicles will continue from Wednesday 1 August to Saturday 1 September 2018. The vehicles will be tested within the Randwick Stabling Yard and along tracks on Anzac Parade and Alison Road, from Lang Road to Wansey Road.

Testing may be conducted Mondays to Sundays between 6pm and 5am.

As part of the testing and commissioning phase, all lights have now been energised at the Randwick Stabling Yard. All lights will be tested using timers, operating from dusk until dawn.

Equipment and vehicles for this work includes light rail vehicles, hand tools, crane, traffic signage, traffic barriers and traffic control vehicles.

You may experience some noise and vibration during this work. Noise monitoring will take place during this period.

Traffic and pedestrian changes

Temporary lane closures along Alison Road and pedestrian detours will be in place during these activities. Where required, traffic control will be in place to safely direct motorists, pedestrians and cyclists.
