Notification of night work– Randwick

In planning for Tomorrow’s Sydney we are building a new light rail line to provide fast reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to live traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities

Work will take place at the following locations and at the following times:

- **Alison Road**, between Darley Road and Prince Street from Monday 11 July to Friday 12 August, 9pm to 5am. Activities involve drainage work, civil work (includes excavation, asphalt paving, road pavement work), vegetation work (includes protecting trees, trimming branches, mulching and tree or shrub removal) as well as traffic signals and signage. Barriers will be removed on northern side of Alison Road to establish a 24-hour clearway. These works were detailed in the notification distributed in May.

- **Wansey Road**, between Alison Road and High Street from Sunday 10 July to Friday 15 July, 9pm to 5am. Activities involve site establishment, setting up traffic controls, utility relocation, vegetation work (includes protecting trees, trimming branches, mulching and tree/shrub removal), traffic signals and signage.

You may experience some noise and vibration during this work. High noise activities such as saw cutting and jackhammering will not take place for more than two consecutive nights (weather and traffic permitting). Respite periods will be in place to mitigate impacts to residents during noisy activity.

Equipment and vehicles for this work may include concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, chainsaws, pick and carry cranes (frannas), saw cutters, road grinders, tipper trucks, hand tools, water carts, milling machines, rollers and traffic control vehicles.

Traffic and pedestrian changes

Work will involve some lane closures under traffic management. Motorists will still be able to travel in both directions along Alison Road, with only some minor delays expected.

Access from High Street onto Wansey Road will be temporarily closed from 10 to 15 July 2016. Access to buildings and driveways will be maintained for local residents via Arthur Street under traffic management. Access on Wansey Road from Alison Road and Arthur Street will remain open.

Traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.
