Light rail construction is continuing in your area from 8 December 2017

In planning for Tomorrow’s Sydney we are building a new light rail line to provide modern, reliable and sustainable public transport that will transform services from Circular Quay and the CBD to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

What we’re doing in Kensington

ALTRAC Light Rail will relocate the worksite and undertake intersection work on Anzac Parade, between Todman Avenue and High Street Kensington, from Friday 8 December 2017.

The construction site will move to the following locations:

- Eastern kerb of Anzac Parade between Todman Avenue and High Street.
- Median of Anzac Parade between Todman Avenue and Addison Street.
- Western kerb of Anzac Parade between Addison Street and High Street.

This set up will be in place for approximately six months.

Installation of all track slab on Anzac Parade in this area is now complete. Construction activities will now focus on kerbside works including undergrounding power and telecommunication services, kerb widening, drainage, installation of footings for new smart poles, and restoration of footpaths.

As part of this work, the right hand turn on Anzac Parade northbound into Todman Avenue will be reinstated and the temporary right hand movement from Anzac Parade to Doncaster Avenue will be removed.

Work may at times be subject to further approval and work periods may be altered, due to weather or unforeseen circumstances. Impacted stakeholders will be notified.

Work location and activities

Site establishment, investigation and construction work:

- Anzac Parade, between Todman Avenue and High Street (Zone 29)

Work may also take place on cross-streets and side streets around the area for pavement restoration works.

Work times

Work will occur during standard daytime hours to minimise impacts where possible:

- Monday to Friday, 6am to 6pm
- Saturday, 8am to 5pm.

Night time and weekend work may be necessary for safety and traffic reasons. When required, this will take place from 8pm to 6am and on Sundays from 8am to 5pm. Impacted stakeholders will be notified in advance.

Details of work activities

Investigation work: includes surveying and locating services, trenching and excavating the road surface and footpaths, testing utility pits and condition of utilities, and heritage investigation.

Construction work: includes movement of site compounds (installation of fencing and barriers, traffic signal work, changes to signage and line marking, lane closures and traffic changes), surveying and locating services, excavating road and footpath for utility protection and relocation, drainage work, removal of overhead utility network, stop construction, vegetation work (trimming, mulching and removal of shrubs or trees), retaining wall construction, heritage works, road pavement work (asphalt milling and reinstating the
pavement), and transportation of excavated material.

**Smart pole and street lighting work:** includes piling, kerb realignment and street lighting adjustments, awning adjustments, pole footings, and use of temporary street lighting.

**Intersection work:** includes excavation, utility identifications and relocation, traffic signal work, changes to signage and line marking, temporary street lighting, traffic signals and signage, and pavement removal and reinstatement.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, compaction equipment, bobcats, cranes, saw cutters, road grinders, tipper trucks, hand tools, water carts, semi-trailers and traffic control vehicles.

**How will work affect you?**

**Traffic and pedestrian changes**

For the latest information on traffic changes please visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

From 8pm Friday 8 December 2017 the following traffic changes on Anzac Parade, between Todman Avenue and High Street, will be in place:

- Two traffic lanes will be maintained in both directions, separated by a median.

- Between Todman Avenue and Addison Street the worksite will be located on the eastern kerb and the median of Anzac Parade.

- Between Addison Street and High Street the worksite will be located alongside the eastern and western kerbs on Anzac Parade, with the traffic lanes placed centrally on the existing road carriageway.

- A central median separating the northbound and southbound carriageway will, in time, be utilised for temporary street lighting. Existing street lights will need to be removed to facilitate the kerbside works.

- The worksite will extend approximately 30 metres into Darling Street to facilitate pavement restoration works. Temporary removal of 4 parking spaces on Darling Street on the southern side at the Anzac Parade junction.

- Speed limits on Anzac Parade will remain at 50 kilometres per hour.

- Temporary footpath closures will be necessary to undertake this work. Access for emergency services will be maintained at all times. Changes to local access will be advised in advance.

Additional intersection work on Anzac Parade will take place at Todman Avenue and Doncaster Avenue from 8pm Friday 8 December:

- The right hand turn from Anzac Parade northbound into Todman Avenue will be reinstated, with three lanes returned in the northbound direction to facilitate this movement.

- The temporary northbound right hand turn from Anzac Parade into Doncaster Avenue will be removed, as part of the end state arrangement.

The Doncaster Avenue bicycle path will not be impacted.

Localised traffic control will be in place to assist motorists, pedestrians and cyclists with the new traffic arrangements.

**Bus stop changes**

- The southbound bus stop on the eastern side of Anzac Parade, outside the Doncaster Hotel, will be temporarily relocated 30 metres south. A temporary access platform will be installed on the road carriageway along the length of the bus stop.

- The northbound bus stop on the western side of Anzac Parade before Addison Street will be temporarily relocated 115 metres south closer to Doncaster Avenue.

See map overleaf detailing construction site and traffic changes.

**Waste collection**

Garbage collection through the Randwick City Council service will operate along Anzac Parade as per normal conditions.

**Noise and vibration**

You may experience some noise and vibration during this work. Where possible, the noisiest work will be scheduled during the daytime and evening.

Noise and vibration monitoring will be conducted and, where practical, mitigation measures such as noise blankets will be used to minimise impacts as much as possible. Vehicles will be switched off when not in use to minimise noise.

Respite periods will be provided for high noise work, such as saw cutting, jack hammering and rock breaking. Where required, any dust generating activities will be watered down.

During these works, service vehicles may be required to temporarily park on footpaths or across driveways.
from time to time for short periods during night work.
Every effort will be made to reduce the impact to residents and businesses while work takes place.

Keeping you informed

Construction of the light rail will continue in your area after this notified period. You will receive periodic updates as work progresses in your area and advanced notification of any night and weekend work.

Please visit sydneylightrail.com.au for all current construction notifications.

To keep you informed of the latest project updates, we encourage you to provide your contact details so that we can stay in touch. Please email your contact details to SLRCommunity@acciona.com.au

This will ensure you receive project notifications, monthly e-Updates, and invitations to the Light Rail Community Forums. This information will not be used for any other purpose.

Contact information

We apologise for any disruption or inconvenience caused during this important work. For general project enquiries, please call 1800 684 490 or email projects@transport.nsw.gov.au. If you have any urgent enquiries or complaints during this work, please contact the 24-hour Construction Response Line on 1800 775 465.

To find out more information on the CBD and South East Light Rail, visit sydneylightrail.com.au and for further detail on CBD changes, visit mysydneycbd.nsw.gov.au.
