Light rail work will continue in your area from 25 November 2017 to 25 February 2018

In planning for Tomorrow’s Sydney we are building a new light rail line to provide modern, reliable and sustainable public transport that will transform services from Circular Quay and the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

What we’re doing in Randwick

ALTRAC Light Rail will continue work in the Randwick area from Saturday 25 November 2017.

This notification covers continuing construction activities within established worksites, work to install the power and communications systems for light rail, and intersection works for the three month period from 25 November 2017 to 25 February 2018.

Work may at times be subject to further approval and work periods may be extended due to weather or unforeseen circumstances. Impacted stakeholders will be notified.

Work locations

Continuing construction work:
- Randwick Stabling Yard
- Alison Road, between Anzac Parade and Darley Road (Zone 23)
- Alison Road, between Darley and Wansey Roads (Zone 24)
- Wansey Road, between Alison Road and High Street (Zone 25)
- High Street, between Wansey Road and Avoca Street (Zone 26)
- High Cross Park and surrounds (Zone 27)

Systems work:
- Randwick Stabling Yard
- Alison Road, between Anzac Parade and Darley Road (Zone 23)
- Alison Road, between Darley and Wansey Roads (Zone 24)
- Wansey Road, between Alison Road and High Street (Zone 25)
- High Street, between Wansey Road and Avoca Street (Zone 26)
- High Cross Park and surrounds (Zone 27)

Intersection work:
- Alison Road and Anzac Parade
- Alison Road and Darley Road
- High Street and Wansey Road
- High Street and Avoca Street
- High Street and Botany Street
- Belmore Rd and Cuthill Street

Work may also take place at other intersections, on cross-streets and side streets around the area. Further information will be provided to impacted stakeholders before work begins.

Work times

Where possible, work will occur during standard daytime hours to minimise impacts:
- Monday to Friday, 6am to 6pm
- Saturday, 8am to 5pm

Intersection work will take place across both day and night shifts to ensure it is finished as quickly as possible, minimising impacts to traffic and nearby residents.

Night time work is necessary at times for safety and traffic reasons. When required, night work will take place from 7pm to 6am, or as dictated by Road Occupancy Licences (ROLs). Impacted stakeholders will be notified in advance.
Details of work activities

**Construction work**: includes utility investigation, protection and/or relocation, movement of site compounds (installation of fencing and barriers, traffic signal work and changes to signage), line removal and marking, drainage work, excavation, vegetation work (trimming, mulching and removal and plantation of shrubs or trees), surveying, structural work, concrete pouring, paving, heritage work, road pavement work (asphalt milling and reinstating the pavement), shared path installation, piling, track work (rail delivery, rail/track installation, welding, saw cutting and surface finishing), road construction, kerb realignment, street lighting upgrades, overhead wire and light poles installation, installation of fences and landscaping, transportation of soil and excavated material, installation and testing of electricity kiosks, conduits installation, cable pulling, traffic switches, combined services installation, stormwater installation, deliveries of equipment and materials, stop construction, substation construction.

**Systems work including**: underground cable installation, overhead wiring installation, pulling and testing, substation fit-out, installation and testing of substation equipment. Further information will be provided to the community ahead of overhead wiring installation in specific areas.

**Intersection work including**: excavation, utility investigation and/or relocation, safe removal of hazardous materials, civil construction work, electrical work, track work (rail delivery, rail/track installation, welding, saw cutting and surface finishing), pavement removal and reinstatement, kerb and footpath work, finishing work, traffic signals and signage.

**Substation work including**: landscaping, backfill, utility work, structural steel, electrical fit-out, roofing, air conditioning, demolition of temporary construction hardstand, installation of geothermal cooling system (include trenching and drilling rods), construction of a paved plaza, reinstatement of park, pavement work, drainage work.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, cranes, compaction equipment, chainsaws, saw cutters, road grinders, tipper trucks, hand tools, water carts, semi-trailers, piling rigs, spray seal trucks, asphalt pavers, roller, elevated working platforms, and traffic control vehicles.

How will work affect you?

**Traffic and pedestrian changes**

For the latest information on traffic changes please visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

Alison Road will remain open during work and traffic will be maintained in both directions.

At times Wansey Road will be temporarily closed to general traffic. Access will be maintained for local residents. Further information will be provided to local residents before work begins. Traffic control will be in place to direct motorists.

Construction speed limits may apply. Access to buildings, driveways and pedestrian footpaths will be maintained. Any interruption to property access will be discussed with impacted stakeholders well ahead of time.

Traffic control and signage will be in place to direct motorists, pedestrians and cyclists safely around construction operations as required. Access for emergency services will be maintained at all times.

**Noise and dust**

You may experience some noise and vibration during this work. Efforts will be made to schedule the noisiest work during the daytime and evening.

Noise monitoring will be conducted and, where practical, mitigation measures such as noise blankets will be used to minimise impacts as much as possible.

Vehicles will be switched off when not in use to minimise noise. Where required, any dust generating activities will be watered down.

Every effort will be made to reduce the impact to residents and businesses while work takes place.

**Keeping you informed**

Construction of the light rail will continue in your area after this notified period. You will receive periodic updates as work progresses in your area and advanced notification of any night and weekend work.

Please visit [sydneylightrail.com.au](http://sydneylightrail.com.au) for all current construction notifications.
Contact information

We apologise for any disruption or inconvenience caused during this important work. For general project enquiries, please call 1800 684 490 or email projects@transport.nsw.gov.au. If you have any urgent enquiries or complaints during this work, please contact the 24-hour Construction Response Line on 1800 775 465.
