

## Notification of night work – Randwick

In planning for Tomorrow's Sydney we are building a new light rail line to provide fast, reliable public transport from Circular Quay, through the CBD, to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to traffic and to maintain the safety of construction work, residents, businesses and the general public.

### Details of work activities

Work will take place at the following locations and at the following times:

**High Street, between Wansey Road and Avoca Street from Monday 20 February to Monday 27 March 2017, 7pm to 6am.** Activities involve geotechnical investigations (surveying and potholing), utility investigation and relocation, heritage work, road pavement (includes asphalt milling), vegetation works (tree protection and tree and shrub removal), traffic signals and signage. This work will take approximately 24 nights within the notified period.

To undertake this work, parking will be temporarily occupied in a staged manner along both sides of the street as required.

You may experience some noise and vibration during this work. High noise activities such as saw cutting and jackhammering will not take place for more than two consecutive nights (weather and traffic permitting). Respite periods will be in place to mitigate impacts to residents during noisy activity.

Equipment and vehicles for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, coring and drilling machines, excavators, cranes, saw cutters, road grinders, tipper trucks, hand tools, water carts, semi-trailers, chainsaws, mulcher, spray seal trucks and traffic control vehicles.

### Traffic and pedestrian changes

**For the latest information on traffic conditions, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.**

Work will involve some lane closures and minor diversions under traffic management, with only some minor delays expected. Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.
